## State Route 322 Harrisburg, PA

In the summer of 2000, over 4 miles of sound barriers, retaining walls, and bridge abutments along State Route 322 in Dauphin County, PA, were coated with Urethabond 104 primer and Urethabond 111 topcoat. This anti-graffiti coating was selected based on its ability to withstand many years of cleanings with harsh chemicals while still retaining its original gloss and color.
